

Presentation Graphics
Blizzard Bag #1

Learning Targets:

Students will be able to analyze previous PowerPoints and pick out trouble areas.

Students will be able to list and describe characteristics of an effective PowerPoint.

Read the [following tips](#) on how to create and deliver a PowerPoint presentation from [Microsoft](#). After reading the tip sheet answer the following questions.

1. Think about a PowerPoint that you created for a different class. What tips from the article do you have trouble following?

2. You have all been in the audience for a PowerPoint presentation. In your opinion, what made the presentation good or bad? Give specific examples.

3. What are some steps you can follow to ensure that your presentation is ready to play at a different computer?
